## SUMMARY

A self-steered individual who is committed to growing daily by learning from others. An embedded systems scholar who is keen on applying knowledge on technology to help tackle major drawbacks in the community, i.e., applying automation on farming to support farmers.

An astute developer with knowledge in web development driven on making simple-to-use web applications as per client's requirements and needs.

I work flawlessly with others, communicate effectively, solve problems, offer support, work under tight schedules to deliver assignments and adapt to occurring changes.

## EDUCATION

**Bachelor of Science in Microprocessor Technology and Instrumentation |**

**University of Nairobi**

2017 – 2022

Second Class Upper Division

**Kenya Certificate of Secondary Education | Segero Adventist High School**

2013 – 2016

Scored a B+

**Kenya Certificate of Primary Education | Sangalo Central Primary School**

2008 – 2012

Scored 370 marks

**Primary Education | Lessos Educational Centre**

2005 – 2008

## INTERESTS/HOBBIES

- Running
- Football

## EXPERIENCE

### **Citizen Radio Analyst | Cloud Factory Kenya**

2021 – JAN 2023

I work part-time listening to US police radio clips and writing relevant updates for the [Citizen App](#) which is a company that ensures their users are always informed on crimes near their location to keep them safe. Citizen is the No. 1 personal safety app in the U.S., with a mission to make the world a safer place. Citizen provides 911 alerts so people can use their phones to keep themselves, and the people and places they love, safe. Citizen has notified people to evacuate burning buildings and led to the rescue of kidnapped children and missing people.

## PROFFESIONAL TRAINING

**ICDL (International Computer Driving License) | Alphax College**

**React Development by Bob Ziroll | [Scrimba](#)**

**Web Development Bootcamp by Angela Yu | [Udemy](#)**

**DAM Javascript Bootcamp | Apprentice Cloud Kenya**

**PHP Web Development | [eMobilis Kenya](#)**
