+2348109211864

## Skills

**Proficient:** Node.js, Javascript, C, Python, Html, Css

**Moderate:** Flask, SQL, MongoDB, Bash, Git

## Projects

**AirBnB\_clone** [https://github.com/belovetech/AirBnB\\_clone](https://github.com/belovetech/AirBnB_clone)

- Manipulated data object by creating Console / command interpreter to sequentially manage data
- Implemented storage engines - file storage and database storage - to store and persist users' data.
- Designed, built and employed RESTful API to manipulate objects, securely performing operations on data objects

**Stucamp** <https://github.com/belovetech/stuCamp>

- Developed an authentication system using json web token which increased protection of users' data and application architecture
- Restricted operations of authenticated users based on users' privilege thereby improving users' data integrity
- Reduced debugging process time by 50%, by designing a custom error handler, facilitating smooth debugging and optimizing the overall performance, reliability, and efficiency of the software application

**Fyyur** <https://github.com/belovetech/Fyyur>

- Developed a musical venue and artist booking sites for discovery and booking of shows.
- Transformed a file storage system to a database storage system for persistence of artist and show data

## Work Experience

### Junior Software Engineer

#### Wejapa

Feb, 2022 - Dec 2022.

- Major player of the application development team, actively contributed to designing and building customer's projects and periodically monitor client's database.
- Proficiently troubleshoot, debugged and fixed simple and complex technological issues for different assigned projects
- Demonstrated expertise in translating user's needs into software solutions, achieving over **90% of customers' satisfaction rate**, which greatly contributed to increase in business revenue

### ICT Teacher and Computer Lab Supervisor

**NYSC: Annunciation Catholic College, Irrua, Edo State.**

Nov, 2021 – Oct, 2022.

- Trained and mentored over 100 students on computer literacy and technological skills
- Supervised and trained teachers on use of ICT for teaching and learning
- Provided users and software assistance to teachers, students and residents of the community.

## Education

Fullstack Software Engineering, ALX Education, Nairobi, Kenya.

**Dec 2022**

B.Ed, University of Ilorin, Kwara, Nigeria

**Oct 2021**
