Summary

I'm a well-qualified Full Stack Developer familiar with various programming utilities and languages. Knowledgeable of backend and frontend development requirements. Handles any part of the process with ease. Collaborative team player with excellent technical abilities offering 3+ years of related experience.

I'm dedicated to improving my skills through hands-on learning and development work. Proficient in Android App Development. Adept at using Java, Kotlin, PHP LARAVEL, HTML5, JavaScript, SQL, and other programming languages to produce clean code. Well-organized and collaborative team player with strong communication and analytical abilities.

I'm well-versed in analyzing user needs and developing software to meet diverse needs. Demonstrates mastery of multiple programming languages and proactively keeps up with industry trends. I am driven to wear many programming hats with expertise in creating everything from new applications to new operating systems.

Experience

AWS Cloud Practitioner

Freelance

Sep 2021 - Present (1 year 5 months)

1. Worked with services like EC2, Lambda, SES, SNS, VPC, CloudFront, CloudFormation, etc,
2. Demonstrated expertise in creating architecture blueprints and detailed documentation. Created bill of materials, including required Cloud Services (such as EC2, S3, etc.) and tools
3. Skills in API usage, command line interface and SDKs for writing applications
4. Experience in guiding the classification, plan, implementation, growth, adoption and compliance to enterprise architecture strategies, processes, and standards
5. Demonstrable experience with developer tools like Code Deploy, CodeBuild, Code Pipeline, design the overall Virtual Private Cloud VPC environment including server instance, storage instances, subnets, high availability zones, etc

Android Developer | Full stack engineer | IT help Desk

Freelance

Jan 2020 - Present (3 years 1 month)

1. Assist in the development of technology roadmaps to evolve the API estate in conjunction with internal and external solution providers
2. Work as a technical expert with clients, analysts, programmers and other team members to develop technical solutions to complex business problems
