WORK EXPERIENCE [Tips in Blue]

Backend Ruby Developer, Lixy Tech (Remote) – June / 2018 – October / 2022 – California,USA.

LixyTech specializes in providing web and mobile based solutions to small and large scale

businesses, organizations, etc.

⇢ Built, implemented applications & back-end services using Ruby on Rails,Tools used include Ruby on Rails, PostgreSQL, Git.

⇢ Integrated third party APIs using SOAP and REST architectures.

⇢ Worked on a patient analysis system for a health organization.

⇢ I work primarily as a backend engineer in the engineering team.

⇢ I contribute to the company's blog with technical articles.

⇢ I mentored junior recruits and help them get acquainted with the technologies used at LixyTech.

Backend Ruby Developer (Contract), Wizeline Inc (Remote) – Dec / 2021 – June / 2022 – San Francisco, California, USA.

Wizeline specializes in providing IT solutions to small and large scale

businesses, organizations, etc.

⇢ Built, implemented applications & back-end services using Ruby on Rails with focus on client needs. Tools used include Ruby on Rails, PostgreSQL, Git.

⇢ I worked primarily as a backend engineer in the engineering team.

Backend Ruby Developer (Contract), Socketworksng (Remote) – January / 2021 – Dec / 2021 – Lagos, Nigeria.

Socketworks specializes in providing web and mobile based solutions to small and large scale

businesses, organizations, etc.

⇢ Built, implemented applications & back-end services using Ruby on Rails, demonstrating service-oriented architecture and focus on client needs. Tools used include Ruby on Rails, PostgreSQL, Git.

⇢ I was the lead in the Ruby on Rails team.

⇢ My skillset includes Ruby on Rails, Rspec framework, Git, PostgreSQL, MySQL.

Java Developer, Aqua-Dike - Jan/2017 - Mar/2018 – Port harcourt, Rivers.

An IT consulting company based in the eastern part of Nigeria,primarily focused on providing solutions

to engineering firms interested in Hydraulic Engineering and construction in Riverine areas.

⇢ Implemented and maintained a standalone app which could produce values for some high end hydraulic engineering task (Note, it's values are ten times the limit produced by MS Excel)

⇢ Worked as a freelance Java developer, the tech stack includes Java, Git, jfreechart and other third party java libraries

Note: I left as a result of my decision to relocate to a different state (Lagos State).

Web Developer, Kliqital - Jan/2016 – Nov/2016 – Owerri, Imo.

An online market place for freelancers and IT consulting company,based in the eastern part of Nigeria,the company ran a platform that enabled users/clients gain access to technicians who can assist in repairing their faulty electronic devices.The devices included Tvs,laptops,phones,etc.

⇢ I worked as a backend engineer in the development and implementation of the company's product called Gofixam, a reference can be found here https://techpoint.africa/2017/02/23/gofixam-profile/

⇢ The Tools used include Ruby on Rails, Javascript, Sass, Git, Heroku, Asana, Postgresql, Google Analytics.

Note: I left when the startup folded after one year.
